VACCINE DATABASE FOR CMU FACULTY AND STAFF
To participate in relaxed COVID-19 mitigation protocols on campus, U.S.-based faculty and staff will need to upload their vaccination documentation into the HealthConnect Portal database, following the instructions on the Vaccine Database page. If you are not vaccinated or do not upload your documentation, when on campus you must wear a facial covering (over your nose and mouth) indoors always and outdoors when physical distancing of six feet or more cannot be maintained. You must also continue to complete the daily symptom self-assessment and participate weekly in Tartan Testing.

SCS NEWS + AWARDS
— To preserve and promote the legacy of the field, CMU Libraries and SCS launched The Robotics Project which includes the project’s first digital exhibition, Building the Robot Archive.

— MoonRanger, a suitcase-sized rover developed by CMU and its spinoff Astrobotic in collaboration with NASA’s Ames Research center, passed NASA’s key decision point review and is in the final stages of preparation for a 2023 mission.

— Institute for Software Research (ISR) professor Norman Sadeh and Ph.D. student Peter Story are among the authors of a new CyLab research study that shows many people are slow to adopt common online security and privacy tools, having misconceptions about what they really do.

— The Department of Energy (DOE) has selected Souradip Ghosh, an incoming Ph.D. student in the Computer Science Department (CSD), as one of its Computational Science Graduate Fellows.

— A team including principal systems scientist John Dolan and Ph.D. student Adam Villaflor in the Robotics Institute developed an algorithm that could help autonomous vehicles safely and efficiently navigate narrow, crowded streets.

Until next week,
---- Martial
