TODAY’S TOPICS

— **CMU’s Iris lunar rover meets a milestone for flight; the student-designed robot is on track to land on the moon in 2021.**

— **Our Artificial Intelligence undergraduate program will confer its first degrees** on Sunday, but did you know that **the first AI undergraduate degree was student-defined and awarded 32 years ago**?

— Congratulations to graduating senior Megan Ung, one of **seven outstanding recipients of the Carnegie Mellon Women’s Association Award.**

— Here is the latest issue of **Bytesize, SCS’s periodic e-newsletter for our alumni, donors, friends and partners.** I’m happy to share this recap of SCS news and information more broadly today, with all of SCS.

— Graduating students: be sure to visit [https://www.cs.cmu.edu/commencement](https://www.cs.cmu.edu/commencement), and invite anyone who’d like to join to [register for the Senior Salute](https://www.cs.cmu.edu/commencement) at noon on Sunday.

Until Friday,

----- Martial
